Emin Tavakkulov

Software Engineer | Backend & APIs

e1000.tavakkulov@gmail.com
+994 77 597 5319
Akim Abbasov 1c, Baku, Azerbaijan

TECHNICAL SKILLS

LANGUAGES

Python · Java · JavaScript · PHP · C/C++

BACKEND & APIS

REST API · Node.js · Spring · Laravel

DATA MODELLING

PostgreSQL · SQL / MySQL · PL/SQL · SQLite

DELIVERY & TOOLS

Git · Jira · Agile · Render

FRONTEND & MOBILE

React · React Native · Flutter · Vue

AI & EMERGING TECH

- LLM APIs & function calling
- AI agents & workflow automation
- RAG & vector databases
- Python AI applications
- Security, privacy & Responsible AI
- Deployment & production

LANGUAGES

Azerbaijani	Native
English	Advanced
Russian	Basic

PROFESSIONAL PROFILE

> Software Engineer with hands-on backend and full-stack experience developing, testing and deploying REST APIs and services in Python, Java, PHP and Node.js, with relational data modelling in PostgreSQL, MySQL and PL/SQL. Comfortable picking up new languages and stacks quickly, having delivered production work across several. Deployed and tested backend services for an environment of approximately 300 users. PhD researcher in Information-measurement and management systems, with a strong interest in metrics, measurement and system reliability. Motivated to grow into platform engineering, Kubernetes, SRE practices and observability, on a team that improves developer productivity at scale.

WORK EXPERIENCE

Full-Stack Developer

2024 — 2026

ALFA INVENTION · Remote

- Developed REST APIs in Node.js with authentication, profile management and social-network features, backed by PostgreSQL.
- Deployed and tested backend services on Render, preparing the environment for approximately 300 test users.
- Built web and mobile clients (React, Flutter) on top of these APIs for job-search and medical-support startups.
- Worked across multiple languages, frameworks and databases, picking up new stacks as projects required.

Back-end Developer

Apr 2021 — Sep 2022

FANFI.MMC · Baku, Azerbaijan

- Developed backend modules in PHP, Java and Python on CMS platforms (Joomla, WordPress).
- Delivered features in Agile sprints tracked in Jira.

IT Intern

Jun 2019 — Sep 2019

Central Bank of the Republic of Azerbaijan · Baku, Azerbaijan

- Gained practical programming experience in the IT department of a regulated financial institution, working with several programming languages and frameworks.

EDUCATION

PhD Degree

Oct 2025 — Present

Azerbaijan State Oil and Industry University · Baku, Azerbaijan

- Faculty of Information Technology and Management
- Specialty: Information-measurement and management systems (by sector)
- Expected graduation: 2028

Master Degree (Graduated with Honours)

Sep 2017 — Jun 2019

Azerbaijan State Oil and Industry University · Baku, Azerbaijan

- Faculty of Information Technology and Management
- Specialty: Biomedical Technology Engineering
- Graduated with Honours (2019)

Bachelor Degree

Sep 2013 — Jul 2017

Azerbaijan State Oil and Industry University · Baku, Azerbaijan

- Faculty of Information Technology and Management
- Specialty: Biomedical Technology Engineering
